PRODUCTION

Harisons employs specially designed, custom-built machines developed in-house, ensuring precision and efficiency in production. With a dedicated maintenance team managing operations seamlessly, we achieve a consistently smooth production flow, optimizing performance and reliability.

TOOL ROOM

With Harisons' experienced professionals, we have the expertise to meet all your mould and machine requirements. Utilizing our machineries and equipment, we ensure precision, efficiency, and reliability in every solution we deliver.

OUR HISTORY

Harisons was established in 1999 by the Harikrishnan brothers—Bhaskaran Harikrishnan and Muruganandan Harikrishnan—whose name inspired the brand. Initially catering exclusively to LUCAS TVS, the company soon broadened its horizons.

Today, Harisons has successfully expanded its customer base, exporting products to multiple countries and solidifying its presence in the global and local market.

1999

Harisons' journey began with a lathe and milling machine, expertly operated by Mr. Bhaskaran—laying the groundwork for its precision-driven growth.

2005

Harisons expands its capabilities with the addition of a Turning Centre and a VMC, enhancing precision and efficiency in its manufacturing processes

2015

Harisons expands its automotive portfolio by supplying aluminum roof bars for the Hyundai Creta, reinforcing its commitment to quality and innovation.

2024

Harisons hits its Silver Jubilee, marking 25 years of excellence. With three successful production projects underway, the company continues its legacy of innovation and precision in manufacturing

MISSION , VALUE & VISION

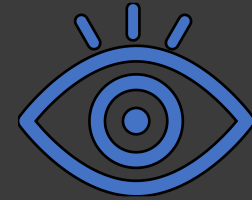

MISSION

To lead the automotive sector by delivering exceptional products and services that enhance performance, efficiency, and reliability, while fostering sustainable and ethical practices.

VALUE

Integrity , Customer-Centric Approach ,
Innovation , Quality & Excellence ,
Sustainability & Responsibility

VISION

To be a globally recognized leader in the automotive industry, driven by innovation, trust, and excellence.

OUR TIMELINE

1999

Harisons' journey began with a lathe and milling machine, expertly operated by Mr. Bhaskaran—laying the groundwork for its precision-driven growth.

2002

Harisons enhances precision with its first EDM Spark Erosion Machine, advancing high-accuracy manufacturing.

2005

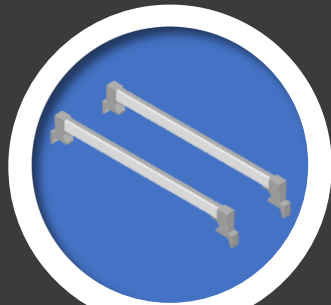

Harisons expands its capabilities with the addition of a Turning Centre and a VMC, enhancing precision and efficiency in its manufacturing processes

OUR TIMELINE

2015

Harisons expands its automotive portfolio by supplying aluminum roof bars for the Hyundai Creta, reinforcing its commitment to quality and innovation.

2022

Harisons expands its infrastructure with a new plant, ensuring enhanced capacity to meet growing customer demands.

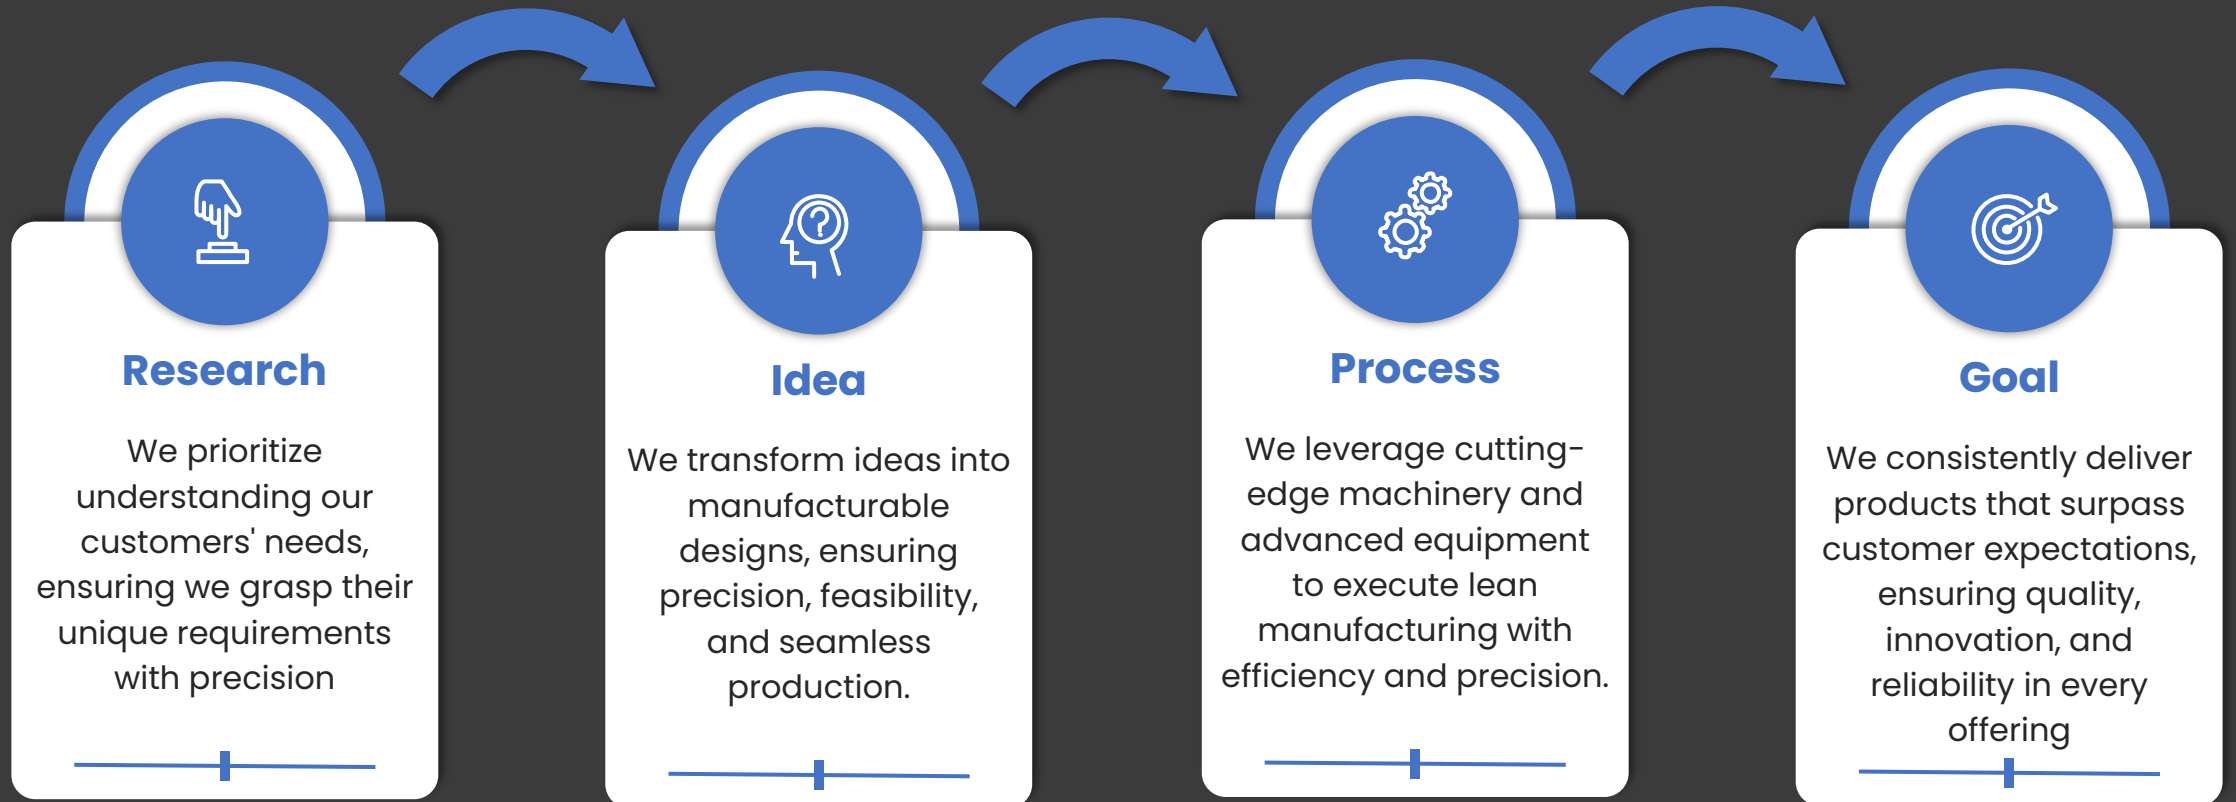

2024

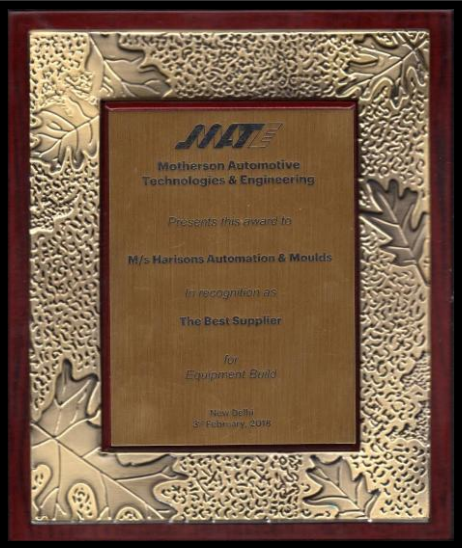

Harisons hits its Silver Jubilee, marking 25 years of excellence. With three successful production projects underway, the company continues its legacy of innovation and precision in manufacturing
